All pay adjustments noted in this matrix must be awarded in accordance with the Office of Human Resources Pay Adjustments Policy (OHR Policy 10.01). The Office of Human Resources (OHR) must approve all base adjustments for UW-Madison employees outside of the pay plan. Until final approval is obtained by OHR, no university official is authorized to promise a base adjustment to an employee.

In specific situations submitting an Overload may be more appropriate than a pay adjustment. Information on overloads may be found in HR Policy 11.02: https://kb.wisc.edu/ohr/policies/page.php?id=53140

Sample Justification wording

**Equity** (HRS Code 006)

**Example #1: between similar staff**

The Department of DEPARTMENT is requesting a base pay increase for EMPLOYEE based on internal equity between similar staff. EMPLOYEE has satisfactory performance. EMPLOYEE is an Information Processing Consultant with a current annual salary of $72,000, as compared with these other employees (see attached salary spreadsheet): COMPARISON EMPLOYEE #1 $75,000; COMPARISON EMPLOYEE #2 $76,000.

We request a pay increase for EMPLOYEE to $75,000, to bring him/her in line with these other similarly situated employees. We have reviewed the impact of this adjustment on the internal equity of the Department and believe the adjustment is needed to maintain internal equity.

**Example #2: hiring new employees at higher rates**

The Department of DEPARTMENT is requesting a base pay increase for EMPLOYEE based on internal equity created by hiring new employees at higher rates. EMPLOYEE was hired as a Payroll and Benefits Specialist Advanced on July 18, 2016 and is being compensated lower than recent new hires in the same title performing similar work who have less experience. EMPLOYEE has satisfactory performance. His/her current rate is $25.60/hour, as compared with these other new hires (see attached salary spreadsheet):

- COMPARISON EMPLOYEE #1 hired in January 2017 at $26.60/hour
- COMPARISON EMPLOYEE #2 hired in June 2017 at $27.00/hour
- COMPARISON EMPLOYEE #3 hired in May 2017 at $24.00/hour and is less experienced than all peers in the Department
Finalists during the last recruitment indicated they had received job offers for similar positions at $27.00-29.00/hour. We request a pay increase for EMPLOYEE to an annual salary of $28.00/hour to bring him above the rate of these comparison employees, since he/she has 4 years more experience than his peers. We have reviewed the impact of this adjustment on the internal equity of the Department and believe the adjustment is needed to maintain internal equity.

**Example #3:** Compression

The Department of DEPARTMENT is requesting a base pay increase for EMPLOYEE based on internal equity compression between employee/supervisor. EMPLOYEE has satisfactory performance. EMPLOYEE is an Outreach Program Manager II with a current annual salary of $80,000, supervising COMPARISON EMPLOYEE #1, who was recently promoted to Outreach Program Specialist Senior at $78,000 (see attached salary spreadsheet).

We request a pay increase for EMPLOYEE to $85,000, to increase the pay differential between EMPLOYEE and COMPARISON EMPLOYEE #1 and bring EMPLOYEE’S pay in line with others in the same title in the division. We have reviewed the impact of this adjustment on the internal equity of the Department and believe the adjustment is needed to maintain internal equity.
**Example #4: Faculty Salary Equity Review**

An additional type of equity review specifically for Faculty; Guidelines set by Office of the Provost – see “Guidelines for Implementation – Standard Faculty Salary Equity Review” ([https://provost.wisc.edu/academic-policies-and-guidelines/standard-salary-equity-review-policy/](https://provost.wisc.edu/academic-policies-and-guidelines/standard-salary-equity-review-policy/)).

**Equity Adjustment for MARTHA WASHINGTON**

We request a base pay increase of $XX for Dr. MARTHA WASHINGTON. Upon completing the annual faculty salary equity study, the Department of Money identified Dr. MARTHA WASHINGTON as a candidate for an equity increase. Dr. WASHINGTON’S current UW base rate of $XX,XXX is low compared to peers within the department. Dr. WASHINGTON is a PhD Associate Professor and the mean for all Associate Professor PhD faculty is $XX,XXX ($XX,XXX if Dr. WASHINGTON is excluded).

Dr. WASHINGTON, PhD is a basic science researcher appointed as an Assistant Professor in March of 2010 with an Institutional Base Salary of $XX,XXX. She was promoted to Associate Professor in July of 2015. Dr. WASHINGTON is one of five PhD associate professors within the Department of Money and has the lowest base salary of that group. When comparing Dr. WASHINGTON with all PhD faculty in the department, we noted that there are four Assistant Professors that are within $5,000 or less of Dr. WASHINGTON’S salary.

*[EXPLAIN WHY/HOW COMPARABLES WERE CHOSEN, AND PROVIDE SALARY EQUITY SPREADSHEET]*: Dr. WASHINGTON has the same research and teaching services responsibilities as that of her peers with her research time devoted to the general field of Coins with specific expertise in the Penny. Dr. WASHINGTON has 15 awards and 65 publications. As shown below and noted on the spreadsheet provided ("Salary Equity Review-Faculty Comparison"), duties, awards and publications relative to comparable faculty confirm that an adjustment to maintain equity of Dr. WASHINGTON’S salary is appropriate.

Comparable Department of Money faculty members are:

1. George Washington, PhD (Associate Professor, Division of the One Dollar, $XX,XXX)
Basic science researcher recruited in January 2010 as an Assistant Professor and promoted to Associate Professor in July 2016.

Basic Duties: This position involves research and teaching services as expected of a tenure track faculty member. Research time devoted to the field of one dollar bills and quarters. An equitable role in the teaching activities of the Division of the One Dollar along with fellow conference.
Number of Awards: 10; Number of Publications: 30

2. Andrew Jackson PhD (Associate Professor, Division of Twenty Dollars, $XX,XXX)
Basic science researcher recruited in August 2004 as an Assistant Professor and promoted to Associate Professor in July 2012.
Basic Duties: This position involves research and teaching services as expected of a tenure track faculty member. Research time devoted to the general field of twenty dollar bills. An equitable role in the teaching activities of the Division of Twenty Dollars along with fellow conference.
Number of Awards: 16; Number of Publications: 81

3. Janet Yellen PhD (Associate Professor, Division of Federal Reserve, $XX,XXX)
Psychology/social researcher recruited in August 2011 as a Visiting Associate Professor and appointed in June 2014 to her first faculty position.
Basic Duties: This position involves research and teaching services as expected of a tenure track faculty member. Research time devoted to the general field of money and the federal reserve. An equitable role in the teaching activities of the Division of Federal Reserve along with guest lecturer attendance.
Number of Awards: 11; Number of Publications: 32

BACK TO EQUITY
**Market**

**A. Market – Outside Offer** (HRS Code 022)

The Department of DEPARTMENT requests a base pay increase for EMPLOYEE due to Market – Outside Offer.

EMPLOYEE received an outside offer for a comparable position from [EMPLOYER OUTSIDE UW SYSTEM], for a base annual salary of $45,000, which is higher than his/her current base annual salary of $40,000. In order to retain this employee, we are requesting to increase his/her base annual salary to $XX,XXX. This increase will match the outside offer [ OR: will not match the outside offer but will maintain equity in the Department and/or work within budgetary limitations ]. See attached evidence of offer [ examples: offer via letter, or offer via email ].

In his/her current position, EMPLOYEE’s primary duties at UW include [ BRIEFLY describe primary duties of current position ]. These are similar to the duties proposed in the other position, which include [ BRIEFLY describe primary duties of other position ]. See attached evidence about the duties of the other position [ examples: job posting, or job description ].

EMPLOYEE consistently has excellent performance in his/her duties. We wish to retain the employee because [ LIST REASONS MAKING COUNTER OFFER DESIRABLE ]

In recommending this increase, the department studied the salary structure of the department, the external market and internal equity.

**B. Market - Retention** (HRS Code 081)

**Example #1: All Employment Categories except Faculty**

The Department of DEPARTMENT requests a base pay increase for EMPLOYEE due to Market – Retention.

[ PROVIDE SUMMARY OF THE RETENTION ISSUE; may include serious retention problem due to increased interest to take outside positions with comparable duties and responsibilities at higher level of pay (examples: applying/interviewing for positions outside ]

Page 12
EMPLOYEE consistently has excellent performance in his/her duties. We wish to retain the employee because [LIST REASONS FOR RETENTION].

In recommending this increase, the department studied the salary structure of the department, the external market and internal equity.

**Example #2: Faculty**

Professor LAST NAME has exceeded expectations in the areas of research, teaching and service. Professor LAST NAME has recently been recruited by UNIVERSITY for a position as a member of their faculty. In an effort to convince Professor LAST NAME to end negotiations for a possible outside offer with UNIVERSITY, the departmental Executive Committee voted to make a preemptive retention offer which Dean LAST NAME authorized contingent on OHR approval.

In recommending this increase, the department studied the salary structure of the department, considered issues of equity and the prospect of future compensation opportunities and analyzed the recent history of raises, retentions, and unsuccessful retention efforts in the department as well as the current external market in order to set the final rate.

**C. Market – Competitive (HRS Code 080)**

**Example #1: All Employment Categories except Faculty**

The Department of DEPARTMENT requests a base pay increase for EMPLOYEE due to Market – Competitive.

Market data for TITLE in the Educomp Salary Survey (Public Doctoral $1-$10 billion budget) shows a median of $85,000, well above EMPLOYEE’s rate of $80,000. This gap in pay raises retention concerns for this position, and we request to increase EMPLOYEE’s base pay to $XX,XXX to address this.
EMPLOYEE consistently has excellent performance and we wish to retain her. [ PROVIDE REASONS FOR RETENTION ]

In recommending this increase, the department studied the salary structure of the department, the external market and internal equity.

Example #2: Faculty

Professor NAME has exceeded all expectations as a faculty member in the Department of DEPARTMENT in the areas of research, teaching and service. His/Her service to the profession and department has been exemplary. [ PROVIDE EXAMPLES OF EXEMPLARY SERVICE, for example: He/She is a prolific scholar of AREA OF EXCELLENCE who has published extensively in his/her field. He/She is an excellent undergraduate teacher and taken the lead teaching courses that prepare our undergraduate students for careers and graduate students for the teaching profession. ]

With this increase, his/her pay rate will be at $XX,XXX, below the 2015-16 AAUDE average of $XX,XXX [ Note: OHR HAS AAUDE DATA ]. In recommending this increase, the department carefully studied the salary structure of the department, considered issues of equity and the prospect of future compensation opportunities and analyzed the recent history of raises and retention efforts in the department as well as the external market, in order to set the final rate.
